We can match your specific Pantone/RAL code to a vinyl match perfect for corporate branding projects. View a RAL chart online [here](#).

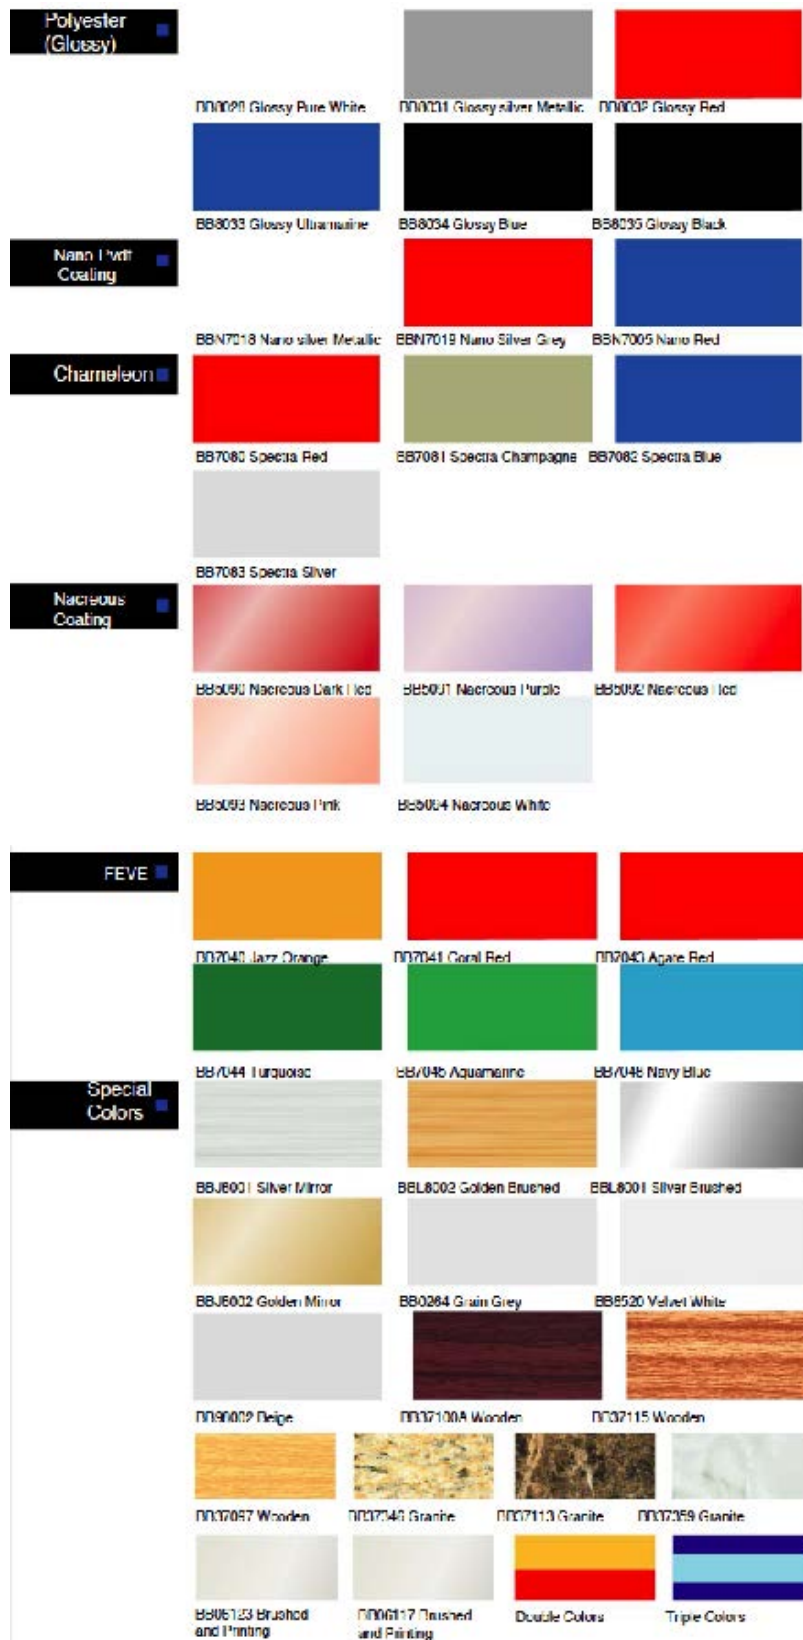

# iBOND Aluminium Composite

Polyester  
(matt)

PVDF

i-BOND Aluminium Composite Panels is composed of nontoxic low density polyethylene core between two sheets of high strength aluminium alloy. Because of its superior performance in rub-resistance, acid-resistance and alkali-resistance, it is widely used as modern building cladding and for interior design

### [Maintenance & Cleaning Instructions](#)

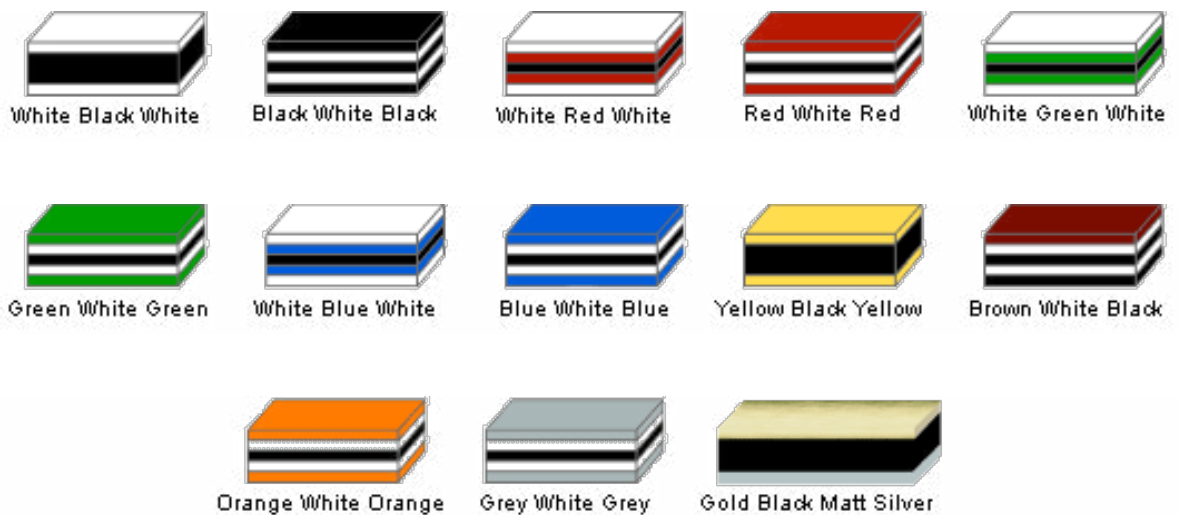

# ABET Engraving Laminate

ABET Engraving Laminates are renowned for their hard wearing capabilities and high impact resistance.

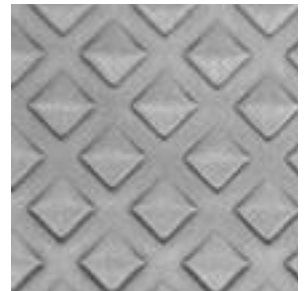

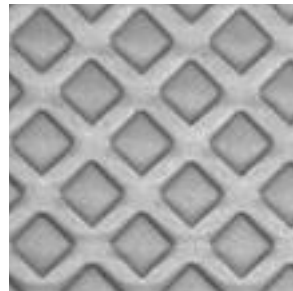

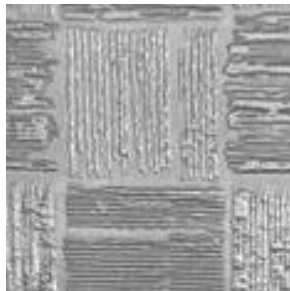

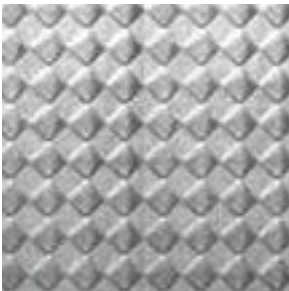

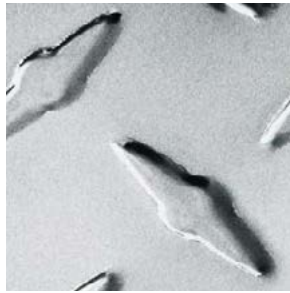

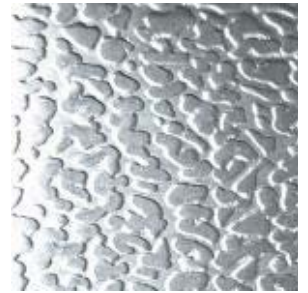

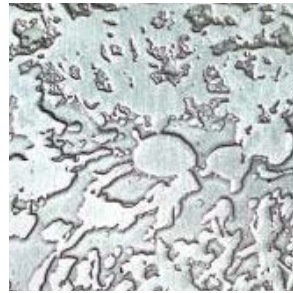

Ideally suited for use in interior applications and can be used outside where, like most self-coloured laminates, they can be expected to exhibit changes over a period of time. Metallics are not recommended for outside use.

ABET comes in a variety of basic colours and specialist finishes like metallic, brushed effect and textured. All come with a contrasting under layer for effective engraving.

More information [here](#).

## A close-up photograph of a textured, light beige surface, possibly a wall or paper. The texture is irregular and granular, with subtle variations in tone and shading. The lighting is even, highlighting the fine details of the surface.

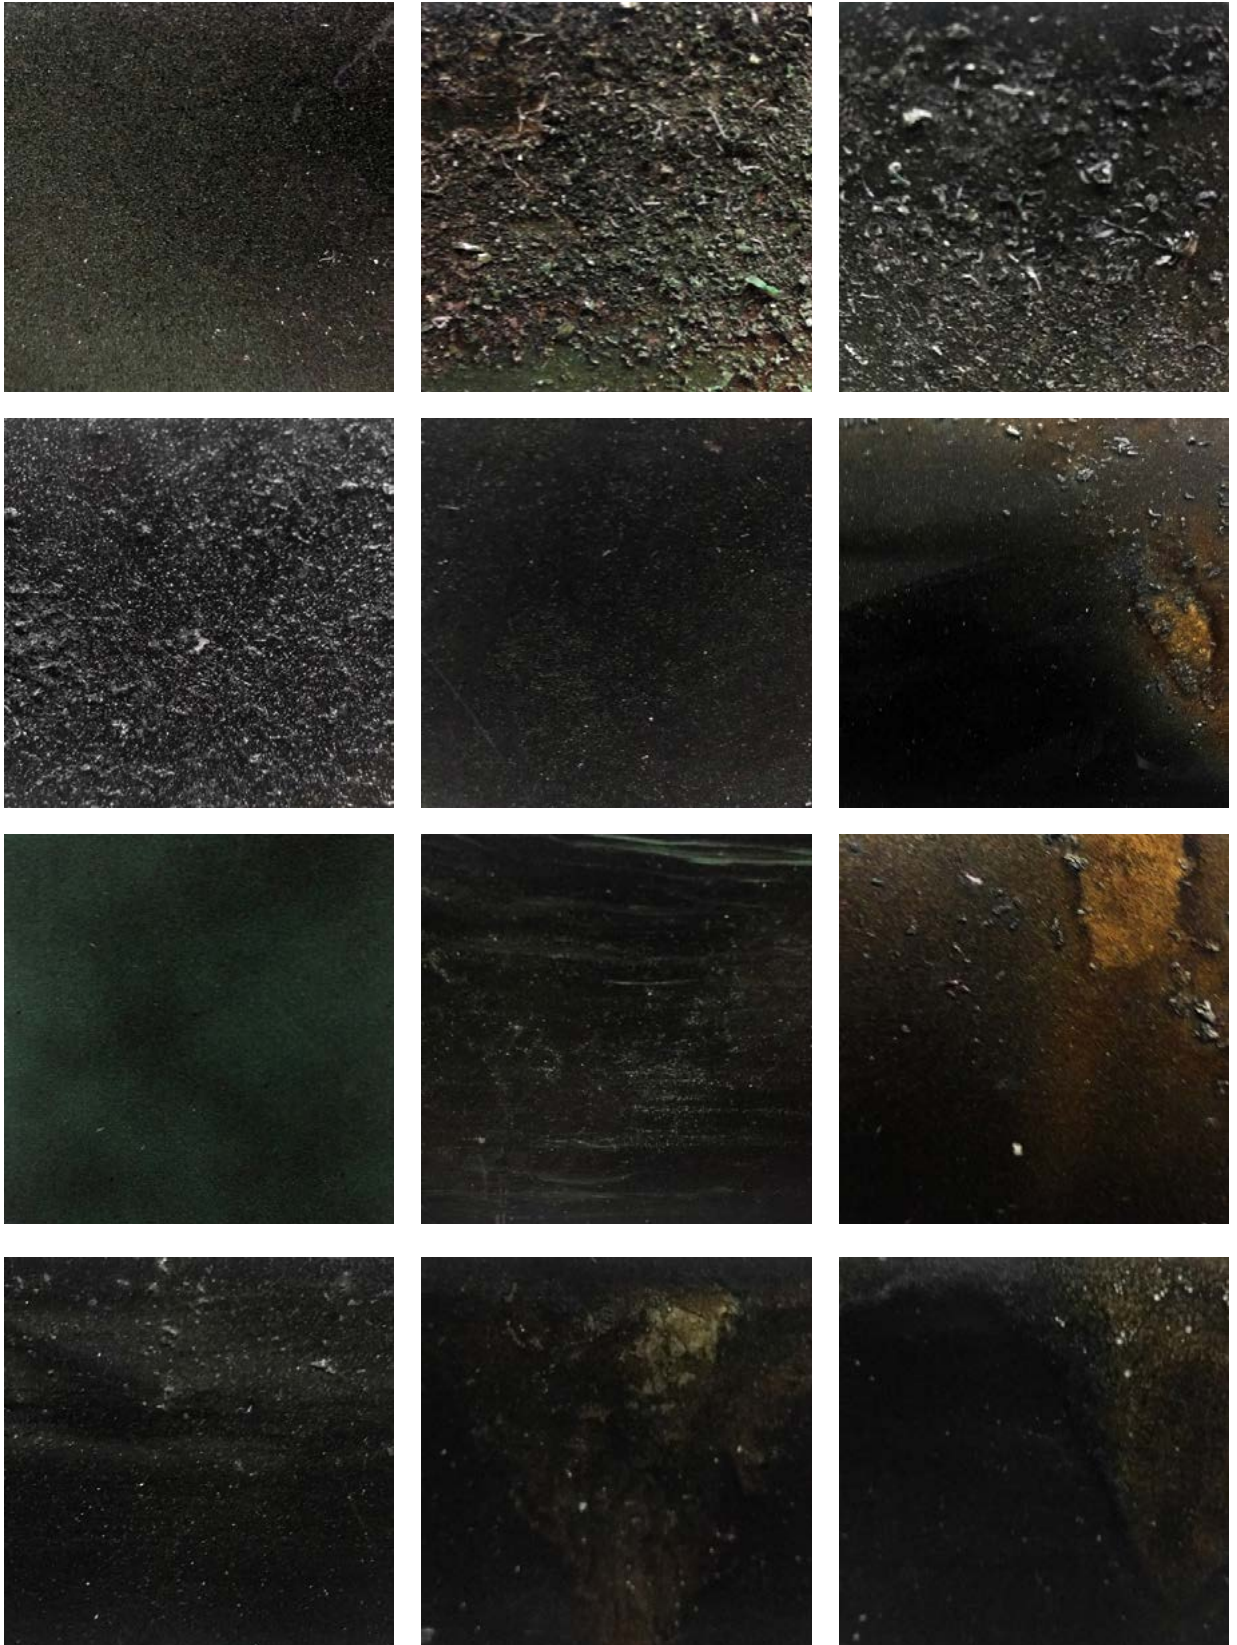

FSC's textured and patterned steel is good for adding depth to your sing, recommended for eye level and interior singage. It is also available in coloured varieties (as shown below) and upon request a custom pattern can be created and is available in a wide selection of metals, gauges, colours and finishes. Find out more about FSC [here](#).

# Custom Paint Work

We can create our own rough, rusted and texturised paint jobs on request, above are some close up sample images of previous jobs showing the type of effects we can achieve.

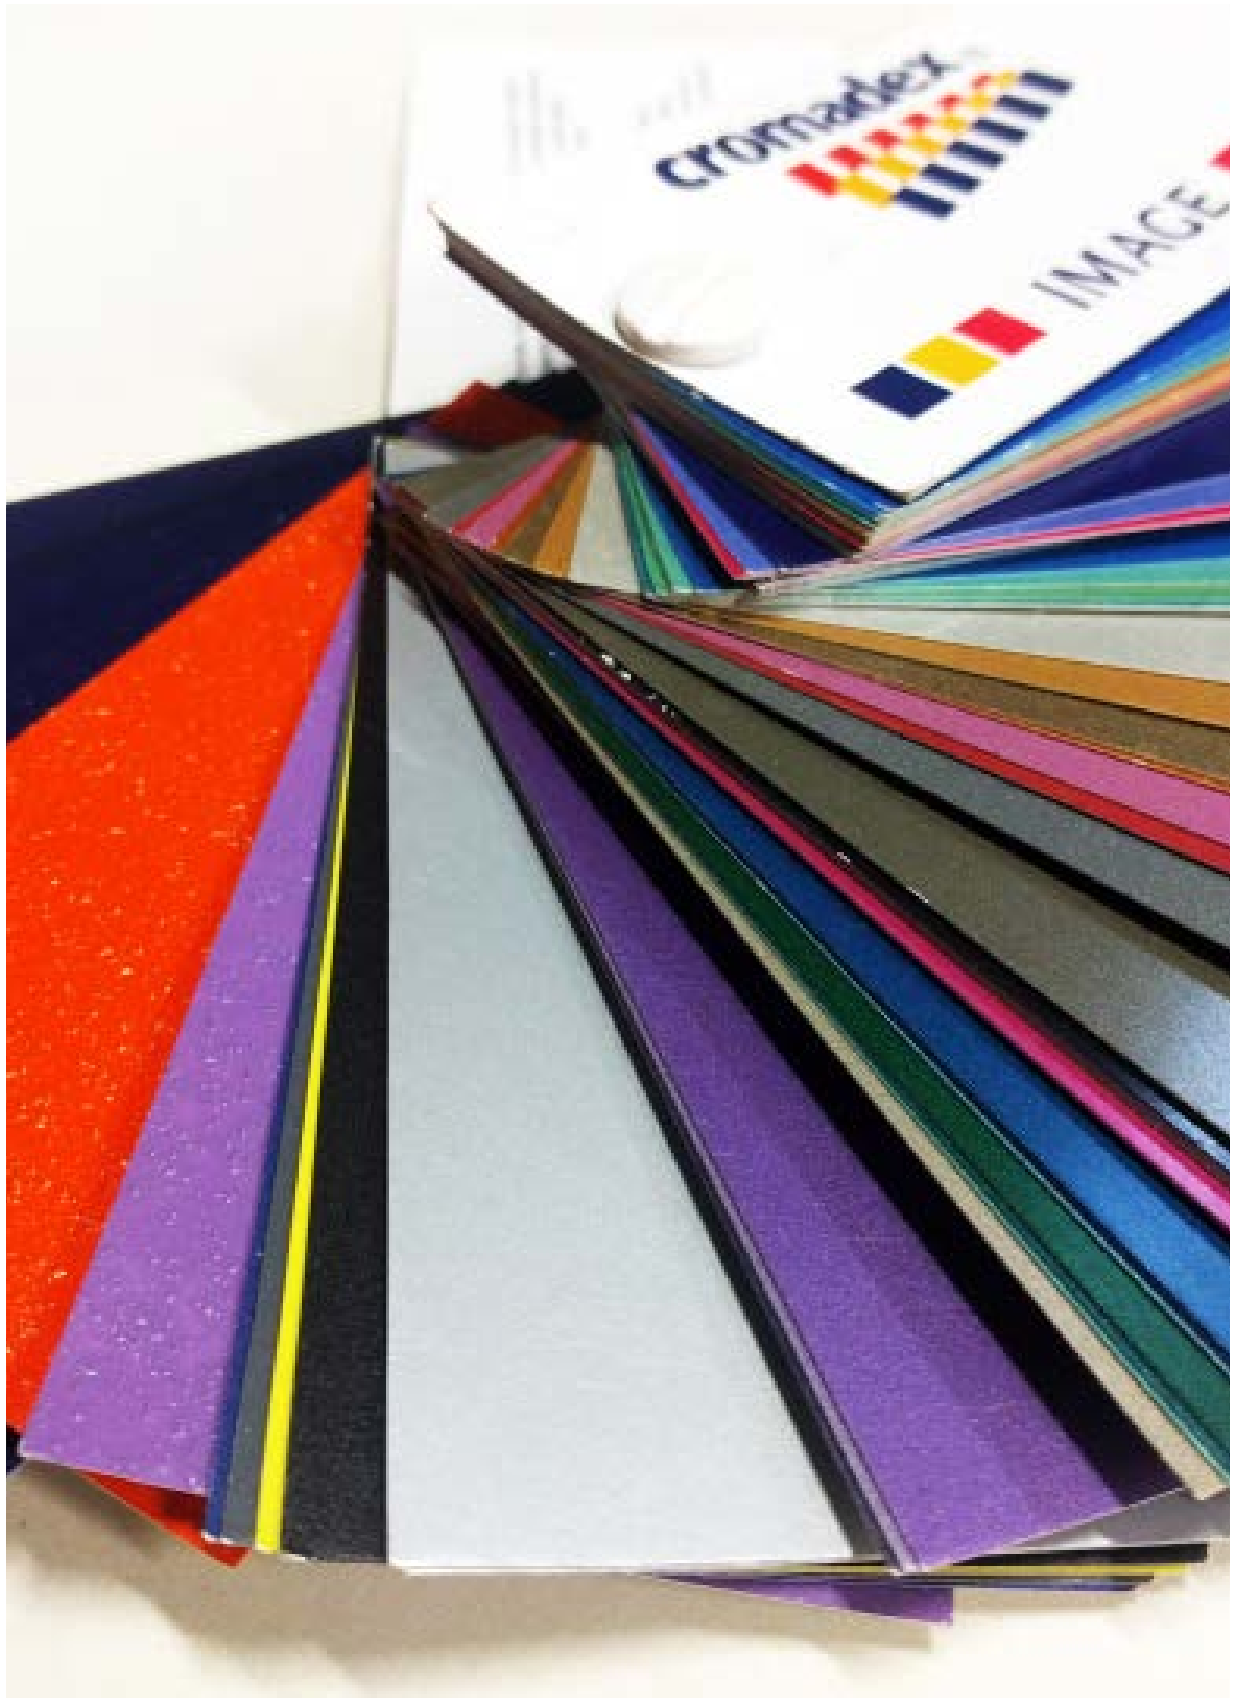

# Cromadex

Cromadex can mix any colour possible and it also comes many effects and varieties specific to need and application.

Check out some of the variations [here](#).

A basic Pantone colour chart [here](#), for a more specific or custom paint style, contact us directly and it can be arranged.

# Perspex

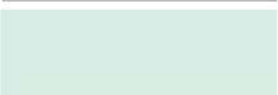

## Perspex® Cast Acrylic

### Clear/Glass-Look Standard Range

Clear 000

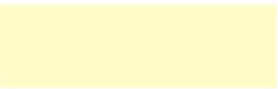

Glass-Look 6T21

The colours shown in this colour selector represent a selection of the Perspex® colours available. The colours shown for translucent and opaque options represent reflected colour. Colours shown for transparent materials represent transmitted colour. All colours shown are as accurate as the printing process will allow, but we strongly recommend that before placing an order for Perspex® acrylic sheet, that you obtain a Perspex® sample.
